JUNE - 1978

JUNE PROGRAM-MEETING: There will be no further General Program-Meetings until September. However, a very important business meeting will take place at the picnic, Sun. June 25, around 6 p.m.

The meeting will focus on the future of the 26" Telescope. This project began about 6 years ago when Miss Cora Zemlock generously made the 26" mirror blank available to us. Plans for the mount and installation are over 90% complete.

A lot of time has been spent and miles have been traveled to select a site. Mr. & Mrs. William Albrecht have made a generous offer of land but have withdrawn it because of changing times and the fact that the project seems to go on and on.

We must make some final decisions and definite commitments. Think about it. Attend the meeting. Speak your mind. What should we do?

ELECTION RESULTS! Your 1978-1979 MAS officers are  
Dwight Harris - President  
Francisco Roldan - Vice Pres. & Prog. Chairman  
Mrs. Virgil Tangney - Secretary  
James Toeller - Treasurer

Elected to serve as Board members are William Collins, James Greenwald, Christopher Hesseltine, and Robert MacLaren.

Ray Zit will continue as Observatory Director while Dwight Harris will be his able assistant.

Harvey Lindemann will carry on the important job as Long Range Planning Committee Chairman.

It's unfortunate that all the candidates could not have been elected since there certainly was a fine slate of energetic, willing people. But we're fortunate that those elected can be counted on to do a good job.

And we appreciate what the outgoing members have done. They're the type of people who will keep on serving the MAS in some other capacity.

OPEN HOUSE: Plans have been put into action to prepare for this important annual event.

The last three Monday nights in July and all the Monday nights in August have been reserved for the general public to visit us and enjoy the programs and facilities.

Again, Long Range Planning Committee Chairman Harvey Lindemann is asking for assistance; telescope operators, aides, booksellers, people to do work as required.

And Harv would like operators to bring privately owned smaller 'scopes of any size or type. All visitors are potential future members, but they may get the impression, after seeing our large instruments, that the cost of astronomy as a hobby is prohibitive, and so may be turned off.

Two more things; 1) Bring a lower power  $1\frac{1}{4}$ " eyepiece for use in the Portascopes-mark it to assure its return. 2) Lots of help is needed Sat., July 15, for pre-Open House clean-up day. Lets make the buildings and grounds look nice to impress the many expected guests.

ANNUAL PICNIC: Relax! Put your tools and cares away for a few hours. Join your fellow members at the annual MAS picnic. Sunday, June 25, starting at 2 p.m. Bring your own goodies; the society will provide free soda, pop, coffee, cake, or whatever someone brings to share. And someone is sure to organize a volleyball game!

Usually we get together around 4 p.m. to eat. A very important business meeting concerning the future of the 26" Telescope will begin at 6 (be sure to read the first item in this newsletter).

Since we're going to have perfect weather and clear skies, bring your 'scopes. A lot of planets are visible now.

AVOID A BILL - Pay your MAS dues before September 1, the Society's fiscal new year. You'll save the treasury some postage and reap the benefits of another year of instructive meetings, monthly issues of Sky and Telescope, observing privileges, etc.

Lest you've forgotten, individual memberships are \$20, Family Plans \$20 plus \$1 for each additional family member, \$15 for Non-Residents, \$12.50 for Juniors under 16, as of Sept. 1, 1978, and \$7.50 for Founder Members. Contributions and pledges to the 26" Telescope fund are also welcome.

Make your remittance payable to the Milwaukee Astronomical Society and send it to James Toeller, 407 W. Mall Rd., Milw., Wis. 53217.

DON'T EXPECT ANY MORE DOUBLEDOMES until September!
