OCTOBER MEETING

Society members and guests have a real treat in store for them! Dr. Robert Greenler, UWM Professor of Physics, will present another fine program at the October General Meeting. His subject will be "Sky Phenomena".

Dr. Greenler will be remembered for his instructive, delightful talk last February which went into great detail on rainbows, sun pillars and other optical phenomena of the sky. We're sure this program will be at least its equal.

Plan to attend! Bring a guest or another member. We'll be meeting

Friday, October 16, 1970, 8:00 p.m.
Physics & Eng. Bldg., Room 137
Corner of E. Kenwood & N. Cramer Ave.
