DECEMBER - 1977

MERRY CHRISTMAS!

HAPPY NEW YEAR!

DECEMBER PROGRAM-MEETING: A two-part program will be presented, starting with an interesting, recently made film, and finishing with mini-talks by several MAS members.

The film is a 1976 release, in color, of a well-made NASA production entitled The Universe.

The program will continue with short talks by:

- o Richard Berry, Technical Editor of Astronomy magazine which is published in Milwaukee.
- o Tom Renner, MAS V. P. and Program Chairman, who will tell about building an observatory.
- o Robert Warren, a new member, who will deliver a slide-illustrated talk about a home observatory, the dream of every amateur astronomer!

Members are welcome to bring guests. There is bound to be something for everyone.

WHEN: Friday, December 16, 1977 at 8 p.m.

WHERE: The UWM Engineering Bldg., Corner of Kenwood and Cramer, Room 135.

HARPSICHORD RECITAL POSPONED! The 26" Telescope Benefit Concert by harpsichordist Jess Anderson and planned for December 11 HAS BEEN POSPONED.

Members who have informed others of the event should immediately notify them of the change.

The new date will be announced in a future Double Dome.

DID YOU CIRCLE JAN. 20TH? That's the date of the Annual Dinner-Meeting at the Boulevard Inn at Sherman and Lisbon in Milwaukee. Plenty of free parking is available.

Dinner Chairman Ray Zit will accept reservations now. A convenient tear-off listing many choices is on page 3. They're all good, so leave your diet at home for this one evening! Each dinner includes soup, relish, baked potato, and a hot fudge éclair.

After the dinner and short business meeting, Dr. Robert Bless, Professor of Astronomy at UWMadison, will give his audience the latest details about an age-old mystery in his talk, Stonehenge.

If you prefer to attend only the meeting which starts at 8, please do. There is no charge.

DON'T HIDE YOUR LIGHT UNDER A BASKET! V. P. and Program Chairman Tom Renner is sure that with the various degrees of astronomical disciplines in the membership of an astronomical society the size of ours, there must be many members who could present a mini-talk on some astronomical subject.

Tom invites you to participate in a special Program-Meeting. Perhaps you have a favorite story, or an unusual observing technique. You can describe your construction or improvement of some device, or re-present a paper you have written -- anything that may be of interest to the members and guests present.

Call Tom. If what you have has merit, he'll encourage you to do your thing, and a courteous audience will gain from it.

NEW MEMBERS: The latest addition to the MAS roster is ROBERT WARREN, Milwaukee. Interests include variable stars, astrophotography, and lunar observations.

CALENDAR:
