SEPTEMBER - 1977

SEPTEMBER PROGRAM-MEETING: The first meeting of the MAS new year will highlight Dr. Snider, Professor at UWMilwaukee as he presents his slide-illustrated talk "COSMOLOGY-THE BIG BANG AND ALL THAT!"

How the universe originated and evolved, and what's in it and how it's put together is an age old enigma. Hoyle believed in the steady-state theory or a universe with no beginning or end, while Gamow believed in an expanding universe that started with a huge explosion or "big-bang." What do you believe?

This will be an interesting evening, so attend, bring a friend!

WHEN - - Friday, Sep. 16, 1977, 8 p.m.

WHERE - UWM Engrg. Bldg., Corner of Kenwood  
& Cramer, Room 135.

"NORTHERN LIGHTS" MEMO: The "Northern Lights" is a 4-page, quarterly newsletter published by the 3M Club AS, and edited by James Fox. The newsy paper prints items of interest about astronomical societies in the North Central Region, which includes the MAS, and also contains interesting paper extracts and notes about past and future events. You'll get something out of each issue.

But Mr. Fox lays it on the line! He asks, "Should we continue?" Mr. Fox offered to head the newsletter six years ago, but subscriptions and editorial offerings have dropped to the point that prompts his question.

Why not subscribe \$1.50 for a year's subscription? Remit to J. H. Fox, 8301 Isle Av. S., Cottage Grove, Minn. 55016. You may contribute articles even if you're not a subscriber. A copy will be on display at the September Meeting.
